Is your safety culture strong enough to mitigate risk and forecast future incidents? Building a strong safety culture to have long-standing positive effects is crucial. One that is proactive, empowering, and creates a sense of team commitment can make or break your organization. In this webinar with Alcumus, you will gain:

- Insight into the relationship between safety performance and culture
- Proactive steps to identify culture barriers and rollout a successful EHS program
- Strategies to win leadership's investment to drive change
- Tactical advice on applying behavioral based safety observations
