

Combustible Dusts – 2023 Year in Review

BRITISH COLUMBIA

LAWS & ANNOUNCEMENTS

Apr 13: From now through June 8, WorkSafeBC will be holding hearings on [proposed changes](#) to combustible dusts requirements under Part 6 of the OHS Regulations that would, among other things, require employers to perform a risk assessment of deflagrability and combustibility and implement a written program to manage the hazards identified.

Action Point: Take 3 steps to [protect workers from hazardous dusts](#)
