

Confined Space Attendant Training Checklist

BENEFITS

The OHS laws require employers to take steps to protect workers inside confined spaces. One necessary safeguard is posting a worker outside the confined space to monitor the work, communicate with the workers and call for help if needed. So-called confined space attendants need appropriate training to fulfill their duties.

HOW TO USE THE TOOL

Use this checklist to ensure that workers assigned as confined space attendants are properly trained. Adapt the checklist for your workplace, its confined space program and the requirements of the OHS laws in your jurisdiction.
