

Eye & Face Protection Policy

BENEFITS

In the workplace, eyes are vulnerable to many hazards, from pieces of material shooting out of equipment to splashes of hazardous substances. That's why the OHS regulations in every jurisdiction require workers to wear proper eye protection when there's a risk of injury to their eyes.

HOW TO USE THIS TOOL

Adapt this model eye and face protection policy for your workplace's OHS program., related PPE policies and the eye protection requirements in your jurisdiction's OHS regulations. Make sure that all workers are trained on the policy.
