

Am I Being Harassed Questionnaire

BENEFITS

Harassment in the workplace is all too common. But workers may not realize when they're being harassed. In fact, they may think the conduct they're being subjected to is normal or acceptable, or that they deserve to be treated that way. In addition, they may not realize when their co-workers are being harassed.

HOW TO USE THE TOOL

Make this questionnaire available to all staff members and encourage them to complete it if they suspect that they might be the victims of harassment in the workplace or witnessed the harassment of someone else. Ensure that all employees know what to do if they conclude that they have, in fact, been harassed, including to whom they should report this behaviour'especially if the alleged harasser is their boss or supervisor.
