

# OHS Records Retention Requirements Across Canada

OHS laws require you to “keep,” “retain” or “maintain” literally dozens of different types of health and safety records covering everything from air testing results to safety committee meeting minutes. Question: Just how long must you hang onto these OHS records? Although it sounds like such a simple question, it takes hours of research to answer. So, we created this Chart to spare you the trouble. [Click here](#) for a more detailed analysis of OHS retention requirements.
