Model Notice to Supervisors

Before you use this tool, you may want to read the further analysis presented here.

BENEFITS

More supervisors are being prosecuted for safety violations across Canada. So it's important for safety coordinators to ensure that supervisors understand their duties under the OHS laws and their possible risk of liability.

HOW TO USE THE TOOL

Give this notice to supervisors, post in the workplace and/or publish in your company's newsletter to remind supervisors in your company of their health and safety duties and the consequences of failing to fulfil those duties.
