

# Refillable Eye Wash Stations

How often do refillable eye wash stations in Alberta need to be changed.

The OHS Code 2009 doesn't specify how often refillable eye wash stations must be changed. The guide to Part 4 of the Code does say, "To be effective when needed, emergency baths, showers, eye wash and other similar equipment must be inspected and maintained according to the manufacturer's specifications." So I would suggest changing a refillable eye wash station as often as the manufacturer requires.
