

Sept. 21: Schools Evacuated Due to Threat

As a result of a threat, all Prince Edward Island schools were evacuated on Sept. 21. School emergency evacuation plans were activated with cooperation from Island police agencies and school administration. All students were moved from the facilities by school staff to safe locations identified in each school evacuation plan. Students were then bused home or picked up by parents. All public schools were searched by law enforcement and reopened on Sept. 22.
