

# Slips, Trips and Falls – Infographic

## SLIPS, TRIPS, AND FALLS

SAFETY MOMENT

### Common Risk Factors

#### SLIPS

- Wet or oily surfaces
- Occasional spills
- Loose, unanchored mats or rugs
- Uneven floors

#### TRIPS

- Poor lighting
- Obstructed view
- Uncovered cables
- Wrinkled floors mats or carpets
- Uneven walking surfaces

#### FALLS

- Using chains or ladders to access high storage areas
- Climbing down ladders while carrying heavy objects
- Poorly maintained or dimly lit staircases

### PREVENTION TIPS

Use flashlights in low-light areas

Use proper footwear for better traction

Keep walkways free from clutter

Clean up debris and spills immediately

Use ridged ramps rather than stairs

Conduct regular safety trainings

Cover or tape down cables and cords

Use a safety harness while climbing

Mark or identify wet areas and spills
