

Supplier OHS Standard Procedure

BENEFITS

Even if you're not legally responsible for your suppliers' safety compliance, suppliers with sub-par safety records can reflect poorly on your company. So consider setting safety standards for your suppliers and conducting audits/inspections to ensure their compliance.

HOW TO USE THIS TOOL

Adapt these model supplier OHS standards for your company's OHS program and policies, its operations and the OHS laws in your jurisdiction. Incorporate it into all your agreements with your suppliers.
