The Most Important Safety Topics According to You

In the last two weeks, we asked you which safety topics you were most interested in having the OHS Insider cover. In two polls, you told us the top 10 topics were:

1. Laws & Regulations
2. Training
3. OHS Programs
4. Supervisors
5. Accidents/Incidents
6. Due Diligence
7. Return-To-Work
8. Selling Safety to Senior Management
9. Inspections
10. Contractors.

So were there other safety topics that we didn’t ask about that you want us to cover’

Safety compliance challenges you need help solving’

Would you like industry-specific safety information and, if so, for which industries’

Tell us in the comments section below so we can ensure we give you the information you want and need!
